Improve your Supply Chain

Any size business can benefit from a Smiths Profiles supply package.

We will create significant efficiency improvements in the supply of your aluminium extrusions, improving availability whilst reducing costs and saving you time.

We offer totally customisable options to provide you with a completely flexible supply solution. The beauty of this service is that it is driven by an IT infrastructure that has been developed entirely in-house, which means it offers flexibility and can be tailored specifically to suit your specific requirements.

Key Features:

- Complete supply chain visibility through our online portal 24/7 without the need for additional software
- Easy access to our online portal using your own part numbers to navigate around reports and data streams
- Online access to electronic copies of documentation or have them automatically emailed to you
- Accurate forecasting using a combination of demand analysis, algorithms and real-world experience
- High certainty of stock availability
- Fast, accurate ordering using our online portal
- Streamlined systems that feed into lean manufacturing operations
- A choice of a single daily/weekly/monthly consolidated invoice
- Up to date lead times and 'live stock' information, available through our online portal

Improve Efficiency, Save Money

A supply package from Smiths Profiles can be as simple or complex as you wish.

With instantly scalable services, we tailor your bespoke supply solution to meet the needs of your business.

Bespoke supply packages can be whatever you want, relating to size, variety, and content. It can be as simple as custom labelling or as complex as total inventory management with line-side delivery. The options are endless and tailored to a customer's specific needs. No two packages are the same, but they all have the same goal – to make the supply chain more efficient whilst promoting improved reliability at a reduced cost.
